

Understanding your customer is key to the success of any small business. Fortunately, there are many great sources of data on the population and how it is changing — this is called Demographics Data. This page is a collection of some of the best sources for demographics data. Most of these links are to public data sources that are free.

If you would like some help sorting through this data, or [want a customized research report at no cost to you](#) (it's prepaid by the U.S. Small Business Administration), don't forget [your local Small Business Development Center](#) — where you can also find free or low-cost training opportunities, plus free professional business counseling.

General Business Statistics

The [federal government](#) collects and reports statistical information for a wide range of demographics data and economic topics. You can search for collected information at <https://www.fedstats.gov/>. The White House has also prepared a compilation of frequently requested topics on their [web site](#). The greatest source of demographics information can be found at the [AmericanFactfinder](#), the Census Bureaus web site for disseminating Census 2000 data. Please realize that all most all services, including GIS, that offer demographics use the Census data. So, you may be paying for a service that is giving you demographics that you could easily be looking up your self for free. If you are paying for your demographics please check to make sure you are getting information that is worth the money you are spending for

demographics.

During each decade, the [Census Bureau](#) collects data on a variety of different subjects, including economic and business related, housing, and special demographics tabulations. See [Subjects A to Z](#) to locate the information you need. The [Statistical Abstract of the United States](#) is a compendium of statistics from a variety of government and other publications.

Sometimes, information on best customers or target markets can be found within articles in newspapers and magazines. [American Demographics](#) is the primary resource for market research articles. Their web site provides snippets of information for free and full articles for a nominal fee.

The Population Reference Bureau provides overviews of their studies at <https://www.prb.org/>.

Demographics by Geography: State, MSA and County

- [State & County Quickfacts](#) Most recent economic and demographics estimates by State and County.
- [CensusScope](#) Create eye-catching charts and tables for key demographics variables by State or MSA.
- [FDIC Regional Economic Conditions \(RECON\)](#) Nice charts and tables of economic indicators by MSA and County. Includes statistics on bankruptcies, housing, employment, and income.
- [County Business Patterns](#) – employment and establishment data for counties, ZIP Codes, and Metropolitan Areas for 1993 to 2000

- [Migration Data](#) can be charted on this web site. See migration by year for the 1990s for MSAs and States. ZIP Code
- [Acorn Lifestyle Lookup](#)- see 2001 demographic estimates and geo-demographic lifestyle data.
- Don't know the ZIP Code? Look up the [ZIP Code](#) for any address here.
- Use [MelissaData.com](#) to find out what ZIP codes are within a certain radius of your primary ZIP code.

Ring Studies

- [The Right Site](#) 2000 Census Data (Free)

Demographics by Subject

Agriculture and Forestry [1997 Census of Agriculture](#) – statistical information about farms and farming (USDA). American Indians/Alaskan Natives [Facts on the American Indian/Alaska Native Population](#) – fact sheet and links to American Indian/Alaska Native data from the Census Bureau.

Asians/Pacific Islanders [Facts on the Asian/Pacific Island Population](#) – fact sheet and links to Asian/Pacific Islander data from the Census Bureau.

Blacks/African Americans [Facts on the Black/African American Population](#) – fact sheet and links to Black/African American data from the Census Bureau. Business & Economic Data

[1997 Economic Census](#)- business establishment data for the nation, states, MSAs, counties and cities.

[EconData.net](#)- another webliography of economic related data sources.

Computer and Internet Use Demographics

- [CyberAtlas](#) – compendium of online statistics.
- [Computer Use and Ownership](#) national data from the Census Bureau's Current Population Survey.
- [Pew Internet & American Life](#) – Research on the hyperspace use.

Consumer Expenditures

- [Consumer Expenditure Survey](#) - consumer expenditure estimates by region and consumer type.

Crime Demographics

- [Bureau of Justice Statistics](#) – everything you want to know about crime and crime control.

Education/Schools Demographics

- [National Center for Educational Statistics](#) – from the US Dept. of Education.
- [ChildCare.gov](#) – statistics related to the childcare industry.

Employment

- [Bureau of Labor Statistics](#) Official Source for statistics on unemployment, employment and wages.

Healthcare, Aging and Vital Statistics

- [Demographic Characteristics of the Aging Population](#) compiled by the Administration on Aging.
- [Statistics on Healthcare and Healthcare Expenditures](#) from the Centers for Medicare and Medicaid Services.
- [National Center for Health Statistics](#) – vital (births & deaths) and health statistics for the nation and states.

Hispanic Demographics

- [Hispanic Research](#) provides overview of Hispanic market.
- [Facts on the Hispanic/Latino Population](#) fact sheet and links to Hispanic/Latino data from the Census Bureau.

Housing Demographics

- [American Housing Survey](#) - US Census Survey of Housing in metropolitan areas (2001).
- [Housing & Urban Development \(HUD\) Research](#) - recent research about affordable housing.

Religious Affiliation and Attitudes Demographics

- [Adherents.com](#) – find out how many Methodists (or other religious adherents) are in your state. Compilation of data from several different sources.
- [American Religion Data Archive](#) Create maps and charts of religious affiliation by state and county. Access to other surveys on religious affiliation and opinion. Funded by the Lilly Endowment through the Pennsylvania State University.
- [American Religious Identification Survey](#) conducted by the City University of New York. Key findings and statistics for the United States can be found on this web site.
- [Barna Research](#) conducts public opinion surveys of Christians and provides analysis of Christian Churches.

- [Hartford Institute for Religion Research](#) a source for various studies on culture and religion. Includes links to other [research centers](#) and denominational statistical offices.
- [North American Jewish Databank](#) statistics are not available online, but information on research conducted nationwide and in various communities can be found here. Contact information for data sources is provided.
- [Religious Congregations and Membership: 2000](#) is a report from the Glenmary Research Center. This Catholic group conducts a census of religious bodies every decade at the same time as the U.S. Census. Highlights and summary information can be found at the web site along with information on how to purchase the full report.
- [Yearbook of American and Canadian Churches](#) is a book published yearly by the National Council of Churches in the USA. Includes statistical information on religious congregations as well as contact information for denominational offices. Includes most religious bodies found in Canada and the United States. The web site includes current statistics for Christian denominations who are members of the NCCUSA.

BLS Demographics Data

Several programs at the Bureau of Labor Statistics make significant amounts of data available for specific demographic categories. Demographic categories used by BLS include sex, age, race, and ethnic origin. The data by age generally are limited to persons of working age, defined as 16 years and older. Data on race generally are for blacks and whites. Data on ethnicity are confined chiefly to information on persons of Hispanic origin.

BLS Statistics, by demographic category:

- [Demographic Characteristics of the Labor Force \(Current Population Survey\)](#) - A monthly household survey provides comprehensive information on the employment and unemployment of the population classified by age, sex, race, and ethnic origin, as well as other characteristics such as educational attainment and veteran status.
- [Geographic Profile](#) - The Geographic Profile of Employment and Unemployment contains some demographic information from the Current Population Survey for regions and divisions, 50 States and the District of Columbia.
- [Consumer Spending](#) - The Consumer Expenditure Survey measures the spending habits of U.S. consumers and includes data on their expenditures, income, and demographic

characteristics.

- [Injuries and Illnesses](#) -Demographic details are available for both fatal and nonfatal occupational injuries along with information about the event producing the injury, the industry in which it occurred, and other details of the incident.
- [Longitudinal Studies \(National Longitudinal Surveys\)](#) -This program provides information about many aspects of the lives and labor market experiences of six groups of men and women at multiple points in time, some stretching over several decades.
- [The American Time Use Survey \(ATUS\) measures the amount of time people spend doing various activities, such as paid work, childcare, volunteering, and socializing.](#)
