

General

- [U.S. Department of Energy](#) provides information on policy changes, regulations, and industry markets and trends, including current fuel prices.
- [Energy Information Administration](#) – government agency that provides forecasts for US fuel markets.
- [Energy Stats](#) – Provides stats on different sources of energy in multiple countries.

Petroleum Related

- [American Petroleum Institute](#) - API is the major national trade association representing the entire petroleum industry.
- [Oil Online](#) an industry online news magazine.
- [Petroleum Place](#) a portal site for the oil and gas industry.
- [Independent Petroleum Association of America](#) - Offers government fact sheets, research information and weekly newsletters.

Utility Related

- [Energy Central](#) a portal site for the electric utility industry.
- [LCG Consulting](#) A comprehensive report about US electricity markets, volatility analysis and pricing database. Also contains price forecasts, reports and energy models.
- [Nuclear Energy Institute](#) an industry supported site which includes information and statistics on the industry.
- [Power Marketers](#) information and news about deregulation.
- [National Association of Regulatory Utility Commissioners](#) - Lists utility associations for both the national and state levels.

Alternative Energy

- [American Wind Energy Association](#) provide up-to-date information on wind energy development, economics, cost competitiveness, and environmental compatibility.
- [BioFuels Informational Links](#) prepared by the USDA Agricultural Library.
- [Renewable Energy Policy Project](#) offers a variety of links and information about alternative energy resources and trends.
- [National Renewable Energy Laboratory](#) Provides information on the projects being undertaken by the U.S. Department of Energy's National Renewable Energy Laboratory. Site sections include information on the following research: biomass, buildings, geothermal, hydrogen and fuel cells, wind and solar.

- [Renewable Fuels](#) – U.S. government energy statistics on renewable fuel sources provided by the Energy Information Administration.
- [Renewable Fuels Association](#) The RFA is a national trade association for the ethanol industry. Site includes regulations, position papers, industry statistics, and an annual industry outlook.
- [Small Business Gateway](#) information on grants and low interest loans for research and commercialization of alternative energy sources. Site provided by the US EPA.
- [DOE Wind Information Resources](#) resource links and industry information.
- [Interstate Renewable Energy Council](#) – a nonprofit corporation that works with industry, government and educators.
- [California Energy Commission](#) – renewable resources using wind, solar, geothermal, biomass and small hydroelectric facilities.
- [State Fuel Cell and Hydrogen Database](#) – a constantly updated searchable database of state programs, policy, incentives, initiatives, stationary fuel cell installations, vehicle demonstrations and hydrogen fueling stations from fuelcells.org (the online fuel cell information resource)
